

Agricultural Essentials: EQUIPMENT MAINTENANCE (MICROCREDENTIAL)

Farm equipment maintenance training is now available for **FREE** in New Brunswick.

Farm workers who can use and maintain basic equipment are vital and in high demand to work on New Brunswick farms.

NBCC is offering an **10-week Agriculture Essentials: Equipment Maintenance** microcredential program to better prepare learners to work in the agricultural sector as farm workers.

The knowledge and terminology covered in the modules includes, but is not limited to, tool identification, equipment uses, equipment components, the importance of upkeep, and health and safety procedures.

GOALS

This program instructs learners to safely use and maintain basic agriculture tools and equipment when working on a farm to reduce downtime and repair costs.

PROGRAM COURSES

- Agricultural Tools & Equipment
- Routine Equipment Maintenance
- Work Safely

MICROCREDENTIAL

Upon successful completion of the program, the learner will earn a microcredential. The microcredential is issued to the learner as a digital badge to display on a resume, LinkedIn, e-portfolio, or other digital network. The digital badge allows employers to see what the learner can do as it shows evidence of the assessed competencies.

Registration deadline:
July 3, 2023
